

KITCHEN GREASE BUSTER

- **KILLS GERMS:** Nilco Kitchen Grease Buster kills a broad spectrum of bacteria quickly and effectively.
- **FAST ACTING:** Effortlessly removes grease and grime and is more effective than conventional cleaners.
- **LOW TAINT:** Nilco Kitchen Grease Buster can be used with confidence in food preparation areas.
- **COMPLIES WITH BS EN 1276**

Ideal for tackling tough grease and soils on all kitchen surfaces with its "deep clean" action. Use on work surfaces, cooker hobs, sinks, ceramic tiles, walls, microwaves, preparation boards, refrigerators and other appliances.

DIRECTIONS: Remove loose food deposits. Open nozzle and spray sparingly on to surface (spray on to cloth for small confined areas). Wipe with a cloth or sponge and rinse if necessary. **CLOSE NOZZLE AFTER USE**

CAUTION: Always follow appliance manufacturers cleaning instructions. Always wash hands after use. As with all cleaners, avoid prolonged contact with skin by the use of rubber gloves. Do not inhale spray. Suitable for hard, non-porous surfaces. Vitreous enamels finishes vary in durability and resistance. If in doubt about suitability of surface, particularly on old or coloured enamel finishes, pre-test on a small inconspicuous area before general application.

HELPFUL HINTS: On stubborn deposits leave to soak for a few minutes before wiping clean. The use of a brush or plastic scourer will assist the removal of deposits. For maximum germ killing performance, reapply to a cleaned surface & allow contact time of at least one minute.

For best results across a wide range of cleaning tasks try the full range of Nilco cleaners:
