Cleaning System Code: H10

1. Introduction

A biodegradable alkaline and solvent free detergent cleaner/degreaser concentrate for all water and alkaline resistant substrates. This product must be diluted with water, prior to use.

2. Where to use

On all water and alkali resistant substrates, for heavy to light duty cleaning applications. This product is particularly effective in the removal of fatty and oily soils, and proteins including dried food deposits.

3. Where not to use

- Aluminium or other soft alloys
- Decorative or waxed finishes
- Vitreous surfaces formulated for kitchen and other catering applications.
- On a routine basis, on polycarbonate or other clear, particularly stressed, plastics.
- On food contact areas where overspray or product retention is expected or tainting may be a problem. This product may be used to clean food preparation and storage areas following assessment and acceptability, provided that all detergent residues are removed, and it is used in accordance with the instructions provided in section 5, with additional warm water rinsing.
- On emulsion painted, cementitious or marble surfaces, without first assessing for suitability on an inconspicuous area

4. Physical properties.

Appearance	Weakly foaming, free flowing, clear pink liquid with a fruity odour.
pH	> 13.0
Specific Gravity	1.040 – 1.060
Non Volatiles % m/m	20.0 – 25.0
Active Content % m/m	20.0 – 25.0
Flammability	This product is not flammable.
Composition Data, descriptive	Water, a blend of organic and inorganic sequesterants and water softeners, a blend of surface active agents and a pink dye.

5. Application Details

ALWAYS DILUTE with hot or cold water before use in accordance with package instructions or concentrations shown below. Spray apply liberally to soiled surface. Allow to remain in contact for a short period, agitating or wiping with a mop, cloth, paper towel, plastic pad, sponge or similar to aid penetration, and remove immediately with a damp absorbent cloth. Better soil removal will be achieved with a longer contact time, but do not allow to dry before removal. There is no need to rinse on floors.

Concentrated Trigger Spray, 1:9 H10/water	Heavy Duty use, 1:25 H10/water
Normal maintenance, 1:50 H10/water	Light duty and floors, 1:100 H10/water.

6. Availability

Five litre jerry cans .
